

## **£312 million Government investment secured for future of both Princess Royal and Royal Shrewsbury Hospital**

**Last month, Health Secretary, Jeremy Hunt MP announced that he  
was allocating capital investment of £312m to fund hospital care services at the  
Princess Royal Hospital Telford and Royal Shrewsbury Hospital.**

This is a massive investment into our local hospital services and one which I welcome. The local hospital trust, Shrewsbury and Telford Hospital Trust (SaTH) will decide how this money is spent and they want to hear from you. They will begin a fourteen week public consultation on how they propose to spend this funding and to ensure our health needs are met. As residents, we will be

asked our views on their proposals.

### **The consultation will start on 30th May 2018**

**To take part in the consultation go to [www.nhsfuturefit.org](http://www.nhsfuturefit.org)**

It is vital that Telford residents get involved and tell local health bosses their views on the plans. I urge everyone in Telford to make sure that they respond to the public consultation and have their say.

SaTH's proposals would provide a purpose built Emergency Centre, New Accident and Urgent Care Centres and a purpose built Critical Care Unit together with new wards and a new Ambulatory Care Facility.

Under the proposals, Telford's Princess Royal Hospital would become the county's primary site for Planned Care Services, including a Diagnostic and Treatment Centre, as well as a new 24/7 Accident and Urgent Care Centre.

It is fantastic news that the Government has pledged to support the future of both our hospitals, with funding of £312m. The clinicians will decide the exact configuration but as Telford's MP, I will be making sure that any scheme the clinicians decide upon, properly meets the needs of Telford residents.

You can see more details about what is planned for each hospital site below. This information has been produced by Shrewsbury and Telford Hospital Trust.

- Click [here](#) for more information about the Emergency Site at RHS.

At Prime Minister's question, I asked the Prime Minister to join me in welcoming this investment into our health services and the benefits it will bring to people in Telford.

My message about the Government funding announcement for our hospital and urging all Telford residents to respond to the consultation, starting on 30 May and lasting for 14 weeks.
